FRAME VARIANT | Before analysis | After analysis

ASSISTED REPORTING

Shift note to incident draft

Turn an unstructured shift note into a reviewable incident record.

STEP 01

Add a shift note

Paste the supervisor's note exactly as it was recorded.

Free-text shift note

At around 14:30 a loose section of edge protection was found on level 8 near the east core. The concrete crew stopped work and isolated the area. No one was injured. Site safety replaced the section before work resumed.

AI output must be reviewed by a responsible person.

Analyse note

STEP 02

Review incident draft

≡

No analysis yet

The proposed incident details will appear here after analysis.

Reject | Edit | Sign and create incident
